## OVERVIEW

In an effort to standardize the description of Marquette University's photographic assets, a working group was formed to develop a common vocabulary for the description of these materials. Our hope is that consistent and agreed-upon naming conventions will provide better image retrieval results for our patrons and that a consistent vocabulary will assist those who have need to search each of the separate catalogs. We do not expect that image creators and catalogers will apply *more* keywords to images than they have in the past, but rather, the keywords used are applied in a consistent manner.

The working group believed that this document would have the most utility if arranged into topical sections and alphabetically thereafter. While some terms may rightly belong in more than one category, we have assigned each term to one category only to reduce the sheer size of this document. If a term is not found in the initial subject category, it may be useful to do a keyword search of the entire document to find the section in which the working group categorized it.

While we have attempted to be as comprehensive as possible, we recognize that this is a document that will grow and change over time. The committee plans to meet quarterly to discuss the utility of the document and the inclusion of new keywords into the master list. Suggestions for new terms can be e-mailed to Michelle Sweetser at [michelle.sweetser@marquette.edu](mailto:michelle.sweetser@marquette.edu).

A few final notes about this document:

- Terms in italics at the beginning of each section are keywords that are of a more broad and general nature, while those that follow are specific in nature.
- In the Buildings/Spaces/Neighborhoods section, the data included in parenthesis after some terms – generally a street address - is not part of the official term, but serves rather to assist in the identification of locations and spaces, particularly those of a historical nature. Thus, while "*Canisius Hall (604 N. 13<sup>th</sup>)*" appears in the following list, the approved term is *Canisius Hall*.
- To aid in the location of terms within this large list, many terms were listed in an inverted order. The official term, however, should appear in direct order due to manner in which many photo cataloging programs handle the inclusion of the comma (as a separator for terms). Thus, while one finds the approved term for Business Administration in this list as *Business Administration, College of*, the approved term is *College of Business Administration*.
