

SPRING 2019 SEMINAR SERIES

Integrative Neuroscience Research Center: Current Seminar Series

Date	Speaker	Title
Tuesday, February 12 th	Alex Savtchouk, Ph.D. Department of Biomedical Sciences Marquette University	Using Two-Photon Microscopy to Discover New Features of Neuronal and Astrocytic Communication in Healthy and Perturbed Brain
Tuesday, February 19 th	David Redish, Ph.D. Department of Neuroscience University of Minnesota	Different Neural Information Processes Underlie Differences in Decision Making
Tuesday, March 26 th	Kate Wassum, Ph.D. Department of Psychology University of California Los Angeles	Cortical-Amygdala Circuitry in Reward Learning and Pursuit
Tuesday, April 9 th	John Neumaier, M.D., Ph.D. Department of Psychiatry & Pharmacology University of Washington	Impact of Stress on the Serotonin Neuron Translatome
Tuesday, April 16 th	Patrick Rothwell, Ph.D. Department of Neuroscience University of Minnesota	Yin and Yang of Opioid Signaling: Beneficial and Detrimental Effects in the Nucleus Accumbens
Tuesday, May 7 th	Jaideep Bains, Ph.D. Department of Physiology & Pharmacology University of Calgary	Social Transmission and Buffering of Stress
Tuesday, May 14 th	Conor Liston, Ph.D. Department of Neuroscience & Psychiatry Weill Medical College of Cornell University	Sustained Rescue of Prefrontal Circuit Dysfunction by Antidepressant-Induced Synapse Formation

All seminars are held at 3:30 pm in
Schroeder Complex, Room 256
